# The Boomerang Cycle: A Global Circle of Giving, Not Gambling, Not Lottery

The **Boomerang Cycle** is **not** a game, not gambling, and not a lottery.

It is a **global donation-sharing platform** where contributions directly support real people all around the world.

Unlike lotteries or betting systems, there are:

- **No prizes to win**
- **No gambling or risk-taking**
- **No “house” or central authority keeping the money**

Instead, the Boomerang Cycle creates a **transparent, fair, and sustainable system of giving and receiving**:

- Every donor contributes the same fixed amount (\$6 + \$0.15).
  - Donations are shared globally, reaching real people in real time.
  - Every donor becomes eligible to receive support in future cycles.

## Introduction

Invented by **Eldad Rubin**, the Boomerang Cycle is a worldwide **micro-donation platform** built on one guiding principle:

**“Help yourself by helping others.”**

It represents a **paradigm shift in philanthropy**, turning generosity into a self-sustaining circle of mutual support that is equitable, scalable, and transparent.

---

## 1. User Experience

- Donors register, contribute a fixed \$6.15, and select a payment method.
  - Each \$6 donation is split into **six \$1 micro-donations**, distributed globally.
  - Donors receive instant confirmation and can **track their giving and impact in real time** through a personal dashboard.
- 

## 2. Recipient Experience

- After 24 hours, donors become eligible to be recipients.
  - Participants are grouped into support intervals, each containing six recipients, ensuring **balance and fairness**.
  - **Standard Cycle**: 1 recipient per 231 donors.
  - **Premium Cycle**: 1 recipient per 50 donors.
  - This system creates a **fair and inclusive circle of giving**.

### 3. Premium Membership

- Premium members contribute an **annual \$100 fee**, but first donate in the Standard Cycle.
  - They gain access to the Premium Cycle with a **1:50 ratio**, offering more frequent opportunities to be supported.
  - One Premium donation per day is allowed to maintain fairness.
- 

### 4. System Logic

- Donors are counted over a rolling 24-hour period.
  - Each interval requires **1,386 donors** ( $6 \times 231$ ).
  - Up to **1,440 intervals per day** are supported; overflow automatically starts new cycles.
  - Donors may contribute up to **10 times per day**, each counted in a separate cycle.
  - **Fair distribution, safeguards, and full transparency** protect the system's integrity.
- 

### 5. Key Innovations

- **Dynamic intervals** adjust to donor volume.
  - **Shared micro-donation distribution** ensures broad global impact.
  - **Multiple cycles per day** prevent dominance by single donors.
  - **Premium membership** provides enhanced participation options.
  - **Transparency reports** guarantee accountability and build trust.
-

## 6. Global Impact

- With **5.4 billion internet users** and nearly **7 billion smartphones**, the Boomerang Cycle is designed to connect people across **195 countries**.
- **Multi-language support** and **USD as a universal unit** make participation accessible worldwide.
- Every \$6 donation becomes part of a **global flow of generosity**, helping create financial stability and community resilience.

---

## Conclusion

The Boomerang Cycle is **not gambling and not a lottery**; it is a **world-changing movement of people helping people**.

By merging micro-donations, fairness, and reciprocity it creates a **sustainable circle of generosity** where every donor has the opportunity to give and receive.

This platform represents the future of philanthropy: **transparent, scalable, and inclusive, ensuring no one is left behind**.

**Let me know if you have any questions or remarks. Thank you, Eldad Rubin**
